Class 10th - CBSE   *May 2018 – May 2019*

   Jai Hind Public School, New Delhi   **Percentage – 79.2%**

PROJECTS

Tour and Travel Management System

- Designed a Full Stack Website to create a responsive, user-friendly platform for travel planning.

- Implemented features like destination search, booking management, and itinerary customization to streamline the user experience.

Hospital Management System

- Built using the MERN stack to manage patient records, appointments, and medical staff information, providing a seamless interface for administrators and healthcare providers.

- Ensured secure storage and handling of patient data with robust authentication, enabling authorized personnel access to sensitive medical information.

My Portfolio

- Created with HTML, CSS, and JavaScript to showcase projects, skills, and professional achievements in a visually engaging and responsive design.

- Used JavaScript to add smooth animations and responsive navigation, enhancing user experience and accessibility across various devices.

ACHIEVEMENTS

Unnati Industrial Training

- Successfully completed Intel Unnati Industrial Training – 2024 . During this program, I focused on Integrated Common Services to Common People , where I gained hands-on experience in applying cutting-edge technologies to enhance the accessibility and efficiency of services for the community.
